

Dear John Simon,

Good Day!

I came across information regarding a scholarship offered by your foundation, and I am very interested in applying to become one of its recipients. I am currently pursuing my bachelor's in Data Science. I have always been passionate about this area of knowledge and would like nothing more than to continue towards higher education at NYU Institute.

I understand that you give your scholarships only to the best and brightest students, which is why I believe that I am going to be a worthy recipient of the assistance offered by your scholarship program.

Below are my academic details and achievements like scored highest in the last semester.

Despite the numerous applications for this scholarship that are sure to fall on your lap, I hope you will take into account my own application. Thank you and I hope to hear from you soon.

Regards,

Jack Paul
